

Craving

Blacklite District

I never felt the same
I'm stuck inside this game
I feel so dead inside
Nowhere to run or hide

It's nothing new to me
Look what you do to me
No way to turn around
I think I'm going down

I'm derailing
No mistaking
I've got that craving
I've got that craving
No more waiting
Never failin'
I've got that craving
I've got that craving

Wake up and see the light
Get off the downward ride
The choice is yours to make
Move on for heaven's sake

It's nothing new to me
Look what you do to me
No way to turn around
I think I'm going down

I'm gonna get out
I've had enough now
It's been a rough round
And I mean right now
I wanna lie down
I will not give out
I'm gonna live now
I wanna live now

I'm gonna get out
I've had enough now
It's been a rough round
And I mean right now
I wanna lie down
I will not give out
I'm gonna live now
I wanna live now

I'm derailing
No mistaking
I've got that craving
I've got that craving
No more waiting
Never failin'
I've got that craving
I've got that craving

Look what you do to me

Look what you do to me (do to me)
Look what you do to me (do to me)
Look what you do
Look what you do
Look what you do

I'm derailling
No mistaking
I've got that craving
I've got that craving
No more waiting
Never failin'
I've got that craving
I've got that craving
