

Do It All Again

Blacklite District

I'm not the one who plays it safe
I never leave well enough alone
Life is a journey, not a race
But I bet I can beat your ass back home

So sound the bell
Stand up, call and raise hell
Ready or not
It's 1, 2, 3, 4

I've never been so close
Next stop, overdose
I crash and burn
Where city thins
I can't believe my eyes
Somehow we all survived
Only to do it all again

I pushed the needle to the red
And hope for the best out on my own
And if it all goes to my head
In an instant it's blown to hell and gone

So sound the bell
Stand up, call and raise hell
Ready or not
It's 1, 2, 3, 4

I've never been so close
Next stop, overdose
I crash and burn
Where city thins
I can't believe my eyes
Somehow we all survived
Only to do it all again

The risk we take
Is the life we make
No time for fear
Right now, right here

So sound the bell
Stand up, call and raise hell
Ready or not
It's 1, 2, 3, 4

I've never been so close
Next stop, overdose
I crash and burn
Mercedes-Benz
I can't believe my eyes
Somehow we all survived
Only to do it all again
Only to do it all again
Only do it all again
Only do it all again
