

# Down Low

Blacklite District

I been feelin' this way for too damn long  
Deep anger and frustration takes its toll  
That's why I have to let it out in a song  
You have no idea what's brewin' in my soul  
What's always on my mind  
It's time to take that breath  
So hard to keep bein' kind  
Need that peace or it's my death

Down low  
Down low  
I've been feelin' so  
Down low  
Down low

The scary cycle that keeps goin' round  
Another day, another low I control  
It sometimes feels like I've already drowned  
But already on the path to my goal  
To feed my soul, to guard my role  
The feeling of at ease  
When I find myself in that zone  
Let it be known

[?] the shit that comes and goes  
It's all about the way you let it show  
Gotta fight it before it really grows  
It's okay when you're feelin' so damn low  
Feelin' so damn low  
Feelin' so damn low  
Feelin' so damn low  
Feelin' so damn low

Feelin' so damn low  
Feelin' so damn low  
Feelin' so damn low  
Feelin' so damn low

The scary cycle that keeps goin' round  
Another day, another low I control  
It sometimes feels like I've already drowned  
But already on the path to my goal  
To feed my soul, to guard my role  
The feeling of at ease  
When I find myself in that zone  
Let it be known

The scary cycle that keeps goin' round  
Another day, another low I control  
It sometimes feels like I've already drowned  
But already on the path to my goal  
To feed my soul, to guard my role  
The feeling of at ease  
When I find myself in that zone  
Let it be known
