

# I Try Today

Blacklite District

Woah  
I try today, I try today  
Woah, I try today  
Woah  
I try today, I try today  
Woah, I try today

I follow the shadow that leaves me behind  
I'm stuck here searching through the sands of time  
I fight through the deep end, I'm gasping for air  
I hope you can feel me, I'm here everywhere

We've been swimming in the deep end  
But it's looking we'll be okay  
And even if we keep sinking  
We can go down knowing that we tried today

Woah  
I try today, I try today  
Woah, I try today  
Woah  
I try today, I try today  
Woah, I try today

I've gone through the madness and lost many days  
I've been there and done that in so many ways  
Like trial by fire and I'm burning bright  
I take the shot cause it's once in a life

We've been swimming in the deep end  
But it's looking we'll be okay  
And even if we keep sinking  
We can go down knowing that we tried today  
Tried today  
Tried today

Woah  
I try today, I try today  
Woah, I try today  
Woah  
I try today, I try today  
Woah, I try today  
I try today  
I try today  
I try today  
I try today  
I try today
