

Left Behind

Blacklite District

Give it your own, and get nothing back
It's like watching a train coming down the tracks
Not too much left, but to lay on your back
Your life flashes by till you're under attack

Take the fall, take it all away
Give your all, see another day

Take my side, take this side
You're gonna be left behind
It's my way, not your way
Not gonna be left behind
Hind, hind, hind
Left behind
Hind, hind
Left behind

Make up your mind, because now's the time
To take my side or be left behind
With nowhere to run, and nowhere to hide
The only choice left is to cross the line

Answer my call, don't look away
You're gonna fall, ask or walk away

Take my side, take this side
You're gonna be left behind
It's my way, not your way
Not gonna be left behind
Hind, hind, hind
Left behind
Hind, hind
Left behind

Take the fall, take it all away
Give your all, see another day
Hind, hind, hind
Left behind
Hind, hind
Left behind

Take my side, take this side
You're gonna be left behind
It's my way, not your way
Not gonna be left behind
Left behind
Left behind
Left behind
