

# Lights Out

## Blacklite District

It's like you have to be afraid, just say hello  
Like you have to roll the dice on a yes or no  
Like you have to be so fucked up to even know  
That the easy road, it don't exist no more

This is just my flow, what's your excuse  
Do you down the booze or do you down the pills  
Do you try to find that peace of mind  
Or do you just blow it off

Like tomorrow  
We always seem to be bothered  
With shit that don't really matters  
It's clever, whatever  
Like tomorrow  
It's like the scene from a movie  
The shit we watch on the TV  
Fantasy, so easy

You can't see  
Living in the dark  
You're not free  
Living in the dark  
Lights out  
Lights out  
Living in the dark  
Lights out  
Lights out  
Lights out, out, out  
Like tomorrow

It's like we have to be killed just to stay alive  
Like we have no control over our own life  
Like we have to constantly be in overdrive  
If you wanna survive and pull out the knife

This is just my flow, what's your excuse  
Do you down the booze or do you down the pills  
Let's try to find that peace of mind  
and don't fuckin' blow it off

Like tomorrow  
We always seem to be bothered  
With shit that don't really matters  
It's clever, whatever  
Like tomorrow  
It's like the scene from a movie  
The shit we watch on the TV  
Fantasy, so easy

You can't see  
Living in the dark  
You're not free  
Living in the dark  
Lights out  
Lights out  
Living in the dark

Lights out

I can't see  
I'm living in the dark  
I'm set free  
I'm living

You can't see  
Living in the dark  
You're not free  
Living in the dark  
Lights out  
Lights out  
Living in the dark  
Lights out  
Lights out  
Lights out, out, out  
Like tomorrow  
Like tomorrow
