

# More Than Ready

Blacklite District

I am more than willing  
To do the kind of things that you wouldn't believe, yeah  
You can always count on me moving steady  
Don't think I'm prepared? Cause I'm more than ready

I'm like one in a million  
And I don't give a fuck about your opinion  
You can always count on me moving steady  
Don't think I'm prepared? Cause I'm more than ready

Yeah, you got me feeling like I'm on one  
Give me something that I need  
High as a kite like I'm on some  
Everybody wants some  
Everybody wants some

You got me feeling like it's all wrong  
Give me something that'll bleed  
Out of control like you got none  
Everybody wants some  
Everybody wants some

I am more than willing  
To do the kind of things that you wouldn't believe, yeah  
You can always count on me moving steady  
Don't think I'm prepared? Cause I'm more than ready

I'm like one in a million  
And I don't give a fuck about your opinion  
You can always count on me moving steady  
Don't think I'm prepared? Cause I'm more than ready

Yeah, you got me feeling like I'm on one  
Give me something that I need  
High as a kite like I'm on some  
Everybody wants some  
Everybody wants some

You got me feeling like it's all wrong  
Give me something that'll bleed  
Out of control like you got none  
Everybody wants some  
Everybody wants some

I don't know what you think you need  
I don't know what you want from me, want from me

I am more than willing  
To do the kind of things that you wouldn't believe, yeah  
You can always count on me moving steady  
Don't think I'm prepared? Cause I'm more than ready

I'm like one in a million  
And I don't give a fuck about your opinion  
You can always count on me moving steady  
Don't think I'm prepared? Cause I'm more than ready

More than ready  
More than ready
