Never Forget It

Blacklite District

(May the bridges out there light the way) ?
I want all the smoke anyway
You want me to burn out? Bitch, I'm here to stay
And this flame ain't ever gonna fade away

Looking really bad, but I just gotta habit
Better not be getting sad, 'cause you just gonna get it
There you go again, you mad, and you shouldn't have said it
Think about what you have and hope you never forget it

Never forget it
Yeah, you know you gonna let me down
Yeah, you know I'll go another round
Yeah, you know you're never gonna try
Yeah, you know you'll never ask me why
You know that the flame is from above
You know that you cannot get enough
You know that you're terrified, it's true
I don't need you anything, so fuck you!
(Never forget it)
Fu-fu-fuck you!
(Never forget it)
