

# No I Will Not

## Blacklite District

No I will not ever stop  
No I will not, I will not go quietly  
No I will not ever stop  
No I will not with everything in front of me  
Kings do not fall  
No they do not  
Tell me to stop  
No I will not

Another night for me to get in front of another mic  
And lay my heart and should down in the feel of a rhyme  
Just another night for me to get in the groove  
And who knew that I'd slay this verse by only take two  
Just another night for me to feel the way I do  
When I know that I'll be missing you  
Just another night, another lonely night  
And baby you can count on seeing me soon

I'll see you soon  
Be with you soon  
Complete you soon  
You'll see

No I will not ever stop  
No I will not, I will not go quietly  
No I will not ever stop  
No I will not with everything in front of me  
Kings do not fall  
No they do not  
Tell me to stop  
No I will not

It was never enough, the view from above  
Got me thinking oh so clearly but I still put on the gloves  
And that's a far cry, from what we thought being innocent  
When you consider all the blood we spent  
It was another time, it was another place  
It was another mistake by the look on your face  
I see the look on your face

I'll see you soon  
Be with you soon  
Complete you soon  
You'll see

No I will not ever stop  
No I will not, I will not go quietly  
No I will not ever stop  
No I will not with everything in front of me  
Kings do not fall  
No they do not  
Tell me to stop  
No I will not

I'll see you soon  
Be with you soon  
Complete you soon

You'll see

No I will not ever stop

No I will not, I will not go quietly

No I will not ever stop

No I will not with everything in front of me

Kings do not fall

No they do not

Tell me to stop

No I will not

No I will not

No I will not
