

One Way

Blacklite District

Runnin' off into the sunset swinging
Hospital bed hold me down, no drinking
Have one more
You're down one score
Aren't having any fun?
Too bad, no more
That's what they say
That's what they're preaching
Every time I come in
They ask if I've breached
You can't be sippin' down on the fuckin' whiskey
It's too risky
Just to fix me

Looking in the mirror
Death couldn't come any faster
It might be, yeah it might be
Looking in the mirror
Could end up being disaster
It might be, yeah it might be

You're either gonna fly
Or you're gonna fall
Do you even wanna get up at all
Will you ever realize that
This road only leads one way
This road only leads one way
It leads one way

(Yeah, yeah)
Blood to blood, let my reign begin
It's heaven I'm after but I live in sin
I think I'm back to when I was on track
I saved for that cus I knew it wouldn't last
Round to round on the floor again
I made my way back to score a win
Blacking out, fuck I'm blocking out
All those words that you know too much about

Looking in the mirror
Death couldn't come any faster
It might be, yeah it might be
Looking in the mirror
Could end up being disaster
It might be, yeah it might be

You're either gonna fly
Or you're gonna fall
Do you even wanna get up at all
Will you ever realize that
This road only leads one way
This road only leads one way
It leads one way

And if it leads one way
It leads one way
One way

And I'm not going down
Going down

You're either gonna fly
Or you're gonna fall
Do you even wanna get up at all
Will you ever realize that
This road only leads one way

You're either gonna fly
Or you're gonna fall
Do you even wanna get up at all
Will you ever realize that
This road only leads one way
This road only leads one way
It leads one way
