

Right Now

Blacklite District

Woke up a little late this morning
But I got nowhere to go
Waiting for the sun to go down
So I can make it to the midnight show

I jump off the wagon
Cause my feet keep on dragging, thinking
Here we go again
Yeah here we go again
My heart starts racing
Cause there's no time for pacing
I want it all, I want it all
I want it right now

Right now
It's alright, it's okay, have a good time
Right now
Cause tonight we will fly till the morning
Come with me
Take my hand and we'll fly away
I want it all, I want it all
I want it right now
Right now
Right now

Show up to the club as the sun sets
Tonight I'm gonna get around
Bottoms up but now my cup is empty
And you know it's about to go down

I jump off the wagon
Cause my feet keep on dragging, thinking
Here we go again
Yeah here we go again
My heart starts racing
Cause there's no time for pacing
I want it all, I want it all
I want it right now

Right now
It's alright, it's okay, have a good time
Right now
Cause tonight we will fly till the morning
Come with me
Take my hand and we'll fly away

Right now
It's alright, it's okay, have a good time
Right now
Cause tonight we will fly till the morning
Come with me
Take my hand and we'll fly away
Right now
Right now
Right now

Woke up a little late this morning
