

## Stricken Down

Blacklite District

Noticed but never found  
Muted but full of sound  
Rescued but left to drown  
Onward but stricken down

Try to hold in all my rage  
Try to make my great escape  
Try to lose myself  
I don't wanna hold it back  
Take a look at where we're at  
Are you not compelled?

Noticed but never found  
Muted but full of sound  
Rescued but left to drown  
Onward but stricken down

Won't you put the shovel down  
Take another look around  
Try to find yourself  
There's no shame in giving  
To the hell you're living in  
When you've no soul to sell  
Kinda like me, I react  
Fed up inside, I'm tired of looking back  
Try me and you'll see just where I'm at  
Just too goddamn easy to fall back, back, back

Noticed but never found  
Muted but full of sound  
Rescued but left to drown  
Onward but stricken down

Noticed but never found  
Muted but full of sound  
Rescued but left to drown  
Onward but stricken down

Woah  
Stricken down  
Woah  
Stricken down  
Woah  
Stricken down
