

Take Me to the Grave

Blacklite District

Locked in constant battle
Always searching to no end
I wonder if this will last
Deep down I know it's all pretend

I wanna take it back
But I can't deal with that
I need it taken away

Flying, trying
Just to stay above the lying, hiding
From the pain inside the heart I'm killing
I just can't be saved
Take me to the grave

What I feel in my veins
So much better than the shame
No remorse for my weakness
Just this war inside my brain

I wanna take it back
But I can't deal with that
I need it taken away

Flying, trying
Just to stay above the lying, hiding
From the pain inside the heart I'm killing
I just can't be saved
Take me to the grave

Flying, trying
Just to stay above the lying, hiding
From the pain inside the heart I'm killing
I just can't be saved
Take me to the grave

Flying, trying
Just to stay above the lying, hiding
From the pain inside the heart I'm killing
I just can't be saved
Take me to the grave
