

# Take the Fall

Blacklite District

You let me take the fall  
You let me take the fall

Where to begin  
All leads to an end  
Old another lie  
Another love that won't survive  
Such ease, such skill  
Your touch, you will  
Was it your intent  
To lock me in the dark

Come alone  
The drama just to sell the show  
Sold my soul  
To someone I don't know  
Who left me

Choking  
Truth cannot be spoken  
What's already broken  
Buried by it  
Buried by it

Choking  
You are only choking  
Fool me into hoping  
And let me take the fall  
You let me take the fall

Vindictive heart  
You live the part  
But I see it now  
The character is broken down  
The more I learn  
Images burn  
Like a photograph  
The scars will surely fade

Come alone  
The drama just to sell the show  
Sold my soul  
To someone I don't know  
Who left me

Choking  
Truth cannot be spoken  
What's already broken  
Buried by it  
Buried by it

Choking  
You are only choking  
Fool me into hoping  
And let me take the fall  
Let me take the fall  
You let me take the fall

You threw me, [?] me  
[?] almost killed me  
It's nothing to you  
This [?] you do

Choking  
Truth cannot be spoken  
What's already broken  
Buried by it, buried by it

Choking  
You are only choking  
Fool me into hoping  
And let me take the fall  
You let me take the fall
