

This Is Where It Ends

Blacklite District

Every day just comes and goes
And feeling happy, it takes the most
You know I wanna be your friend
I won't let you fall again
Don't wanna be your enemy
Yet here I am

Every time I run away
Saying things I shouldn't say
I could never walk you out the door

I know it's all inside my head
I know it's better left unsaid
I know the pain and I've seen red
It's like I'll never get ahead
No longer living with regret
Won't waste the time that I have left
I won't do this again
This is where it ends

I could never watch you walk away
I just hope for another day with you
For you I'd leave this all behind
Let's just give it one more try
Truth is it's not me, it's you

Every time I run away
Saying things I shouldn't say
I could never walk you out the door

I know it's all inside my head
I know it's better left unsaid
I know the pain and I've seen red
It's like I'll never get ahead
No longer living with regret
Won't waste the time that I have left
I won't do this again
This is where it ends

Sometimes, sometimes she cries
Tears fall from her eyes

I know it's all inside my head
I know it's better left unsaid
I know the pain and I've seen red
It's like I'll never get ahead
No longer living with regret
Won't waste the time that I have left
I won't do this again
This is where it ends
