

You Can Do Better

Blacklite District

(You can do better)
Better
(You can do better)

Tell me when you know
What you know
It all comes from down below
It's a long way down
Tell me when you know
What you've seen
It's not always what it seems
You're about to find out

Baby that's the price we pay
Like the words we can't unsay
Sacrifices made today
You'll never get it anyway
Baby that's the price we pay
Like the words we can't unsay
Sacrifices made today
But all I ever hear em say is

(You can do better)
(You can do better)
(You can do better)
(You can do better)
You can do better, whoa, whoa
So much better, whoa, whoa
So much better

Tell me when you know
Where to find
All the love we left behind
It's a long way back
Tell me when you know
It's too late
Cause the devil got away
And the line has gone flat

Baby that's the price we pay
Like the words we can't unsay
Sacrifices made today
You wouldn't get it anyway
Baby that's the price we pay
Like the words we can't unsay
Sacrifices made today
But all I ever hear em say is

(You can do better)
(You can do better)
(You can do better)
(You can do better)
You can do better, whoa, whoa
So much better, whoa, whoa
So much better

So much better

So much better
So much better
So much better
