Queen for a Day (Part 1)

Blackmore's Night

A featherbed to rest my head On roses would I lay A full moon would glow every night And summer would be every day We'd dance and sing all afternoon And rain would wash troubles away Every wish would be granted for me If I could be Queen for a Day...

The finest horse, the color of night The likes you never did see Silver stars and firelight and candles would burn just for me We'd dance and sing all afternoon And rain would wash troubles away Every wish would be granted for me If I could be Queen for a Day...

And when the night grew cold and dark and worries ran too deep Angels would surround my bed and carry me off to sleep We'd dance and sing all afternoon And rain would wash troubles away Every wish would be granted for me If I could be Queen for a Day...
