

# Rock And Roll Circus

Blackstar

Yeah little rock and roller  
Tell me how does this feel  
Things are never what what they seem  
And nothing is ever real  
Yeah little rock and roller  
I am telling you things never last  
One foot in the present  
Just a draught from the past

Little rock and roller yeah

All aboard come enjoy the ride  
As the rock and roll circus comes around one more time

Hey little rock and roller  
There is some good times up for grabs  
It is such a pity  
Your are stuck in anothers past  
Hey little rock and roll  
Play another number  
Go bargain your soul  
Living out the lie  
Acting out this rotten roll
