

Cat & Mouse

BLACKSWAN

See, first of all

Let's set the record straight
No CC si vous plait
Deep down I can't get enough
I need you every day
We can't fight the flames
Things won't be the same
First you had me heated up
Now you acting strange

Can we play games when I'm in impatient
I've been down to go through phases
Until I'm on to you
It's not real until we make it
More than just a situation
Right now we can't assume

It's cat and mouse
All this back and forth we do
Is the child me or you (Me or you)
It's cat and mouse
Conversations overdue
'Cause I need some closure soon (Closure soon)

Yeah, you treat love like a boomerang (Oh)
Up and down and it's up again (Yah)
Had your chance and now you 'bout to lose me (Ooh)
I fell fast like a bullet train
Just one touch, I'ma go insane (Skrtrt)
Never felt this way about anybody (No)

Late nights so high, let's keep it going
No break lights look like
I'm not so hard to pursue
'Cause all I want is you, you, ooh
