

Double Down

BLACKSWAN

Double, double down, down, down
Double, double down, down, down
Double, double down, down, down
Steady, ready set go

Let me tell you something
I might look like someone
You can push aside
That ain't what I'm like (No)
Got a will of iron
A show a lil respect
'Cause I earned
Everything you see
All the drip, it's all me

Ooh, gotta get that bag, all facts
I ain't tripping on
You, better get a life
Get out my business
Get to the door
Knock, knock who is it
Step on the floor
Hot, hot you with it
Drop like a bass
Make 'em pay
Yeah, you better take notes

Try to mess me up
Talk me off my game
Until my mouth is shut
But you don't know you're pushing me to grow
No, no you don't know, oh
That you will only
Make a winner
I'll do it bigger like, woah

I'm coming for ya with that
Boom, boom, boom
Don't care if you, you, you
Don't like my vibe
Double down on it now
Because I know, know, know
I got that go-go-gold
Can't kill the shine
You tell me to give up but I

Double, double down, down, down
Double, double down, down, down
Double, double down, down, down
That how I do, yeah, I double down
Double, double down, down, down
Double, double down, down, down
Double, double down, down, down

Steady, ready set go
Show me what you got, ow, ow, ow
Hit me with your best shot, pow, pow, padow

F-Y-I, no you're not hurting me
I'm turning ya negativity
Into a part of my story

Ooh, gotta get that bag, all facts
I ain't tripping on
You, better get a life
Get out my business
Get to the door
Knock, knock who is it?
Step on the floor
Hot, hot you with it
Drop like a bass
Make 'em pay
Yeah, you better take notes

Try to mess me up
Talk me off my game
Until my mouth is shut
But you don't know you're pushing me to grow
No, no, you don't know, oh
That you will only
Make a winner
I'll do it bigger like, woah

I'm coming for ya with that
Boom, boom, boom
Don't care if you, you, you
Don't like my vibe
Double down on it now
Because I know, know, know
I got that go-go-gold
Can't kill the shine
You tell me to give up but I

Double, double down, down, down
Double, double down, down, down
Double, double down, down, down
That how I do, yeah, I double down
Double, double down, down, down
Double, double down, down, down
Double, double down, down, down

Steady, ready set go
Nothing, no one
Can stand in my way
No mountain too high
No valley too low
Nobody can take
Me down

We double down
We double da-da, da-da, da-da, da-down
Da-da, da-da, da-da, da-da, da-da-down
We double down
We double da-da, da-da, da-da, da-down

I'm coming for ya with that
Boom, boom, boom
Don't care if you, you, you
Don't like my vibe
Double down on it now
Because I know, know, know

I got that go-go-gold
Can't kill the shine
You tell me to give up but I

Double, double down, down, down
Double, double down, down, down
Double, double down, down, down
That how I do, yeah, I double down
Double, double down, down, down
Double, double down, down, down
Double, double down, down, down

That how I do
Yeah, I double down
