

Cough

Blacktop Mojo

Air it out
Let it breathe
Time is coming
Like a thief
To steal everyone and everything we love

Your disease
Is spreading fast
Give it up
The moment's passed
The cure won't ever come quick enough
We're dancing as we all begin to cough

Everybody's sick in bed
Get up and move we'll soon be dead
Am I ill or am I bored again
If I get sick will you still be my friend

Press it down
End it all
The sky is falling
Aerosol
No one cares the wifi signal's hot
We're dancing as we all begin to cough

Everybody's sick in bed
Get up and move we'll soon be dead
Am I ill or am I bored again
If I get sick will you still be my friend

Everybody's sick in bed
Get up and move we'll soon be dead
Am I ill or am I bored again
If I get sick will you still be my friend
