

Hold Me Down

Blacktop Mojo

You're my piece of sunshine
You're my ecstasy
Something I never could find
Oh please don't let me leave
Oh please don't let me leave

Hold me down and tell me everything
Hold me down and make me scream
Hold me down I'll give you anything
Oh please keep me from leaving town
Hold me down
Hold me down

Strange faces neon night life
White lines and city streets
Oh I can't stay long this time
Oh babe it's killing me
Oh babe you're killing me

Hold me down and tell me everything
Hold me down and make me scream
Hold me down I'll give you anything
Oh please keep me from leaving town
Hold me down
Hold me down

Hold me down and tell me everything
Hold me down and make me scream
Hold me down I'll give you anything
Oh please keep me from leaving town
Oh keep me from leaving town
Hold me down
Hold me down
