

True love is gone and I am prone to self destruction
Oh without you I might do almost anything
Like drop back in the hole that I was in before I met you
I'll grin like a fool and you will sigh in sweet release

Deep down I thought I could be different
I thought I could be somebody else
Somehow you never saw through
The mask that I been wearing around
But oh now baby the latex gets sweaty
You know it was a matter of time
Before you walked in and saw me
With nothing on to hide my lies

Oh I'll never change
Oh I'll never change

Uncertainty grows within like a cancer
Feeding unseen on the doubt that's deep inside
Color me a stranger tell them all you're better off now
My identity could never hold up to the light

Deep down I thought I could be different
I thought I could be somebody else
Somehow you never saw through
The mask that I been wearing around
But oh now baby the latex gets sweaty
You know it was a matter of time
Before you walked in and saw me
With nothing on to hide my lies

Oh I'll never change
Oh I'll never change

Deep down I thought I could be different
I thought I could be somebody else
Somehow you never saw through
The mask that I been wearing around
But oh now baby the latex gets sweaty
You know it was a matter of time
Before you walked in and saw me
With nothing on to hide my lies

Oh I'll never change
Oh I'll never change
