

Please Don't Call

Blacktop Mojo

I guess you caught me feeling tired
Face down in this empty bed
Been up all night and wired
Trying to get your memory outta my head

Didn't mean to pick up
Didn't want to get stuck
In this back and forth
Never ending war
You caught me feeling tired
Yeah you caught me feeling tired

Oh oh please don't call
And tell me you need me
I don't miss you at all
Oh oh please don't call
And tell me you love me
Don't tell me you love me

There ain't no other way to say it
I know you're not listening
You don't know how to take it
There's no more you and me

I didn't mean to pick up
Didn't want to get stuck
In this back and forth
Never ending war
You don't know how to take it
There ain't no other way to say it

Oh oh please don't call
And tell me you need me
I don't miss you at all
Oh oh please don't call
And tell me you love me
Don't tell me you love me

Oh oh please don't call
And tell me you need me
I don't miss you at all

Oh oh please don't call
And tell me you need me
I don't miss you at all
Oh oh please don't call
And tell me you love me
Don't tell me you love me
Don't tell me you love me
