Blacktop Mojo

You must be out of your mind  
I never treat you right  
I'm in a combustible state  
I wish you would turn away

But you watch me burn out  
I lit the flame myself  
Don't breathe in the smoke you fool  
Don't want to watch you choke too

I try to keep you from the flames  
But you always come back  
I guess you like to watch things burn  
Pyromaniac

I'm a powder keg of lies  
Stand back before I ignite  
Taste the sulfur in my kiss  
You can do so much better than this

But you watch me burn out  
I lit the flame myself  
Don't breathe in the smoke you fool  
Don't want to watch you choke too

I try to keep you from the flames  
But you always come back  
I guess you like to watch things burn  
Pyromaniac  
Oh I guess you like to watch things burn

But you watch me burn out  
I lit the flame myself  
Don't breathe in the smoke you fool  
Don't want to watch you choke too

I try to keep you from the flames  
But you always come back  
I guess you like to watch things burn
