

## Set It Free

Blacktop Mojo

How long I've been waiting  
Regret finally fading  
But it does drive me crazy  
Watching you move on

What a rude way to awaken  
I've been running around fast asleep  
Your name was a brick through my window  
In the middle of a fever dream

Well my love we've reached tomorrow  
Yesterday is memory  
Why's this such a hard pill to swallow?  
If you love it set it free

Break the dam or drown in sorrow  
The past is breaking me at the seams  
In the morning I may be hollow  
But I knew that's how it'd be

Well my love we've reached tomorrow  
Yesterday is memory  
Why's this such a hard pill to swallow?  
If you love it set it free

Well my love we've reached tomorrow  
Yesterday is memory  
Why's this such a hard pill to swallow?  
If you love it set it free

If you love it set it free
