

The Void

Blacktop Mojo

Burned out and it's no good
Head in the clouds I've got no room
I was hoping that I'd have seen the light by now
Before I end up coming down

Come stand on the edge with me
Do you feel the pull from beneath?
Will you turn around and run away for fear of the fall
Or will you answer the void when it calls?

Skip a rock across the water
It won't go on forever
We all sink to the bottom sometimes along the way
Before they lay us in the clay

Come stand on the edge with me
Do you feel the pull from beneath?
Will you turn around and run away for fear of the fall
Or will you answer the void when it calls?

Come stand on the edge with me
Do you feel the pull from beneath?
Will you turn around and run away for fear of the fall
Or will you answer the void when it calls?
