

Watch Me Drown

Blacktop Mojo

Call for help I'm going under
I need you to keep me alive
In my head I had to wonder
What was going through your mind

When you watched me drown
When you watched me drown

You've got the rope in hand
Won't you please throw me a line
You could have pulled me back to shore
But you had that look in your eye

When you watched me drown
When you watched me drown
Drown!

Don't you dare to chicken out now
You know you can't turn away now
You can't turn away now
You can't turn away now
You can't turn away now

You watched me drown
(Call for help I'm going under)
You watched me drown
(I need you to keep me alive)
You watched me drown
(Call for help I'm going under)
You watched me drown
(I need you to keep me alive)
