

never seen u

blackwave.

I ain't never seen you dance
I ain't never heard you sing
Tryna catch a glance 'cause I know you can
No delay let's start romancing
I ain't never seen you dance
I ain't never heard you sing
Tryna catch a glance 'cause I know you can
No delay let's start romancing

Focus! (Ok)
Focus on ya lips coated ruby red
You, dressed up to show up on a movie set
She a beauty, a cutie, she juicy? Bet
We floated got soaked in the juice, jacuzzi next
With no doubt, I hit the jack, machine gun went dra-ta-to-tat
Ooh, it was all astounding
But I'd still like that hoodie back
Yeah see, all I could see, was all I could take
I ate up that cherry on top of ya cake
Then got offered some mo', got me outta control
And time still ain't used to explore
But I took some mo', daily went in/out my do'
Maxed out the lo', watch the glow (Wow)
Watch it
Cause you been around me for days now
Parading through my place like a playground

I ain't never seen you dance
I ain't never heard you sing
Tryna catch a glance 'cause I know you can
No delay let's start romancing
I ain't never seen you dance
I ain't never heard you sing
Tryna catch a glance 'cause I know you can
No delay let's start romancing

Some day I will find you
Some day I will find you

I wanna be going home
But I think that I'm so damn close
I think that I'm close to finding you
I'm so glad that I crashed on this mission
Stranded on your planet and it's evident
I'm a walking contradiction
Like bitch I'm a feminist
I know every woman's a star
And girl, you shine the brightest in my sky
Yeah it shouldn't be hard
To treat her with some dignity in mind
One time for my Antwerp ladies
One time for my Belgian girls
Two times for my girl who showed me
There ain't nothing better in this world

I ain't never seen you dance
I ain't never heard you sing

Tryna catch a glance 'cause I know you can
No delay let's start romancing
I ain't never seen you dance
I ain't never heard you sing
Tryna catch a glance 'cause I know you can
No delay let's start romancing

Oh I think I found you
Oh I think I found you

Oh I think I found you
Oh I think I found you
Oh I think I found you
Oh I think I...
