

# recluse

blackwave.

Shawty boujee, light my fire  
We reconciling, fulfill desires  
I need lovin', I can borrow  
To kill my sorrow on every morrow  
Shawty

I can't count the times that I've unchained my heart  
And had it fumblin' in the dark  
I can't count the times that I've unchained my heart  
Eagerly in pursuit of a spark  
With knowledge it's set for failure, way before the finish line  
Oh my, just fall in line  
Run me outta time, shawty, I don't mind  
Just need my fix then I'm fine, 'least for a little while

Motionless we're moved  
Through the silence  
By the cycle of the moon  
We ebb and we flow  
Through the silence  
We stayed up all night all night  
We stayed up all night

Shawty boujee, light my fire  
We reconciling, fulfill desires  
I need lovin', I can borrow  
To kill my sorrow on every morrow  
Shawty

I can't count the times I tried to light up a spark  
When I was roaming in the dark  
But I still walk this route  
Uncertain of every step I set down  
I don't wanna stay inside my head  
But can't seem to find a way out  
Faint sounds  
Of thoughts I'm always chasing around  
Like thunder in a faraway cloud

Motionless we're moved  
Through the silence  
By the cycle of the moon  
We ebb and we flow  
Through the silence  
And stayed up all night all night  
We stayed up all night all night

All night all night  
All night all night  
All night all night

Shawty boujee, light my fire  
We reconciling, fulfill desires  
I need lovin', I can borrow  
To kill my sorrow on every morrow  
Shawty
