

# That's Just Me

blackwave.

The mood is good the vibe is right  
I like my girls with 'em jeans tight  
Probably make no sense right now  
But maybe that's just me  
Maybe that's just me  
Maybe that's just me  
Really?  
Maybe that's just me  
The mood is good the vibe is right  
I like my girls with 'em jeans tight  
Probably make no sense right now  
But maybe that's just me  
It just might be me  
Maybe that's just me  
Really?  
Maybe that's just me  
(Maybe that's just me)

Lone nights  
Lone roads  
Lone flights  
I just really wanna get the timing right  
I just really wanna get to flying high  
The mood is good  
The vibe is right  
Nah, I just really wanna get to knowing you  
I just really wanna smoke drink and be cool  
I just want a girl with some g stacks  
I just want your love and I mean that  
Nah that's not me  
I just want a girl with more than two g's  
Girl you want a drink yeah that's on me  
That's on me  
That's on me  
'Cause I be always lying  
I be always lying  
I be always lying  
(Why you always lying)

The mood is good the vibe is right  
I like my girls with 'em jeans tight  
Probably make no sense right now  
But maybe that's just me  
Maybe that's just me  
Maybe that's just me  
Really?  
Maybe that's just me  
The mood is good the vibe is right  
I like my girls with 'em jeans tight  
Probably make no sense right now  
But maybe that's just me  
It just might be me  
Maybe that's just me  
Really?  
Maybe that's just me  
(Maybe that's just me)

Long nights, long roads, long flights  
Just to get the writings on my paper right  
Lost sight from the shine of my crown  
So now I ride, with the windows down  
I can never figure out if you playing  
Got no time to be wasting so now I  
Got my spaceship on the move with no destination  
Just appreciate it, how could you possibly not dig it  
With the vibe we came in, it's so frustrating  
That they getting outta control when given food to the soul  
Soul's are being sold and now they take 'em by force  
So take a little bit of this and a little bit of that  
Little bit of jazz, little bit of trap  
Oh sometimes, all I wanna do is dab, dab, dab  
(And that's why)

The mood is good the vibe is right  
I like my girls with 'em jeans tight  
Probably make no sense right now  
But maybe that's just me  
Maybe that's just me  
Maybe that's just me  
Really?  
Maybe that's just me  
The mood is good the vibe is right  
I like my girls with 'em jeans tight  
Probably make no sense right now  
But maybe that's just me  
It just might be me  
Maybe that's just me  
Really?  
Maybe that's just me  
(Maybe that's just me)
