

The Antidote

blackwave.

That's just the way it go
That's just the way it go
This be the antidote
That's just the way it go

No need to pretend, I just wanna win
Swimming in the bands, feeling live in my skin
I just want a friend, that can hold my drank
While I bust these moves, swinging to break the bank
With some L's on my record I been loving a bit
No falling in love, keep me on top of my shit
I tweak and I twist, grasp a hold of my bliss
Euphoria hits, when I see you shake those hips

Sometimes I just wanna go back
The antidote take me back there

Don't know 'bout you but I'm feeling cute
That's just the way it go
Even when I'm broke I feel good
That's just the way it go
When you feel like you're not in the mood
This be the antidote oh
Just let your bones catch this groove
That's just the way it go
Just what I need
Thank you for the feeling that you bring
Just wanna be there when it blows
Yeah, know what I mean
Know what I mean

I want you to choose
I got all day long to lose
That's just the way it go
You must be my antidote
I can't seem to take it
Now my dreams have been awakened
If you don't make your way in
I got no time left for saying

Sometimes I just wanna go back
The antidote take me back there

Don't know 'bout you but I'm feeling cute
That's just the way it go
Even when I'm broke I feel good
That's just the way it go
When you feel like you're not in the mood
This be the antidote oh
Just let your bones catch this groove
That's just the way it go
Just what I need
Thank you for the feeling that you bring
Just wanna be there when it blows
Yeah, know what I mean
Know what I mean

Sometimes I just wanna go back
The antidote take me back there
Sometimes I just wanna go back
The antidote take me back there
I was on a mission I was always gonna fail
I gotta listen if I wanted to prevail
I wanna hear you say-ay-ay
Take me back there

Take me back there
That's just the way it go
That's just the way it go
This be the antidote
That's just the way it go
