blackwave.

Got the fam got the clan, man we all here  
Pour that liquor in the cup, 'till we up there  
It don't feel alright, but we don't care  
Pour that liquor in the cup, 'till we up there  
Got the fam got the clan, man we all here  
Pour that liquor in the cup, 'till we up there  
It don't feel alright, but we don't care  
Pour that liquor in the cup, 'till we up there

Up there, I'm just like a comet  
Up like the stars, it's a perfect alignment  
Look at me, momma  
I made some money off rhyming  
Don't spend no cash on designer, nopes  
High like my hopes, Young K.I.D. I'm still doing the most  
Black like the wave and I surf at the coast  
Surf on my fans when I'm killing these shows (Yeah)  
Oh shit, God damn, every other city go ham  
Bet a young nigga get bands  
Every time I touch down, like I'm in the NFL  
I'm up like balloons, just like the movie  
You know the cartoon  
Up like the prices on gas  
Up like you're bitch when I ask where she at  
Then I'mma smash

Got the fam got the clan, man we all here  
Pour that liquor in the cup, 'till we up there  
It don't feel alright, but we don't care  
Pour that liquor in the cup, 'till we up there  
Got the fam got the clan, man we all here  
Pour that liquor in the cup, 'till we up there  
It don't feel alright, but we don't care  
Pour that liquor in the cup, 'till we up there

I need love, I need peace  
Don't need drugs to feel free  
Still high when you see 'em up there where I be  
I need more not the least  
I need homes not no lease  
Bye bye needing syncs  
Pay my bills, then watch veep  
Shoutout to selina  
Run a campaign, 'cause I'm tryna make change for my everyday people  
Talking 'bout home, like I barely get to see it  
I be in the dirty, like it's muddy in the speakers  
Call home, now they all wanna see us  
First I made a way, then I made a reason  
Brothers still digging, 'cause the treasure can't keep it  
Save it all for I ball, stacking up while dreaming  
Up there

Got the fam got the clan, man we all here  
Pour that liquor in the cup, 'till we up there  
It don't feel alright, but we don't care  
Pour that liquor in the cup, 'till we up there  
Got the fam got the clan, man we all here

Pour that liquor in the cup, 'till we up there  
It don't feel alright, but we don't care  
Pour that liquor in the cup, 'till we up there

Blackwave. on the rise, yeah we doin' fine  
Time to pour a drink, let my troubles fly  
That's usually not me, but it's on tonight  
Steady shooting three's, yeah we outta line  
Outta sight, yeah, it's been a while  
For two years I've been missing life  
But motherfuckers can't do shit when I rap  
I do it for the brand new whip when I crash  
Way too fast for this shit will it last  
Up there with the fam  
Ain't no shit too fast

Got the fam got the clan, man we all here  
Pour that liquor in the cup, 'till we up there  
It don't feel alright, but we don't care  
Pour that liquor in the cup, 'till we up there  
Got the fam got the clan, man we all here  
Pour that liquor in the cup, 'till we up there  
It don't feel alright, but we don't care  
Pour that liquor in the cup, 'till we up there

I'm woke as fuck, but still reckless bitch  
High as hell right by the Jacksons crib  
Want my Addy, that's where I live  
Cali G with impressive grip  
In the function with a baddie  
Rolling while two stepping shit  
I go dumb like I get paid  
So, hoe, don't expect me to quit  
Told my nigga fill my cup  
I might get scummy when I'm flexing  
Fuck my issues roll some more  
It help make my nights last forever  
That's my weed, it smell like must  
That's my chick that look like lust  
That's my song that's in the club  
That got them hoes going dumb

I can not be found until it's dark  
When the moon arise when my day start  
Late night, catch me dancing on 'em stars  
We all across the globe just like the Starks  
I can not be found until it's dark  
When the moon arise when my day start  
Late night, catch me dancing on 'em stars  
We all across the globe just like the Starks
