

Got It On Him

Blade Brown

Niggas say I've been missing from the scene
I was too busy living life, Michelin cuisines
Still on a mission for the queens
So I hit the strip and whistle to the fiends
I shout my nigga Slick, yeah the beat's got me
Left me no other choice but to speak cocky
Shout my niggas on the strip, yeah the street's got me
Dropping food on niggas like I eat sloppy
These little niggas better act crack
You can't mix the yag with that, it won't react crack
Just go and get your facts right
Got some little niggas that'll snatch lives
Real trap shit up in these sixteens
I was fifteen jumping on the piff scene
My packs ain't sloppy cause I mix clean
Might hit the club and sell a bitch dreams

Every time we come through, that's a lot of foreigners
Link with the money makers, got a lot in common
If he ain't talking then he's got it on him
If he ain't talking then he's got it on him
Every time we come through, that's a lot of foreigners
Link with the money makers, got a lot in common
If he ain't talking then he's got it on him
If he ain't talking then he's got it on him

Why you tryna front?
You're acting like you want it when you know you really don't
You're screaming "O.T.F.", what your mummy and your aunt?
Listen you ain't little dirt my nigga, this ain't what you want
Nah this ain't what you want, see me I'm over calm
I roll with couple sharks and octopus with all these arms
You ain't got no fire nigga, you're a false alarm
Plus I've got no time for beef my nigga, different kinda farm
We're banging e-i-e-i-O's by the half or the kilo
Like old school radio, drop my bars and then reload
Drop them bars and then reload, drop them bars and then reload
Man has to do that bar there a couple more times
So you feel how that shit goes
But you'd probably never know
Cause you don't get money off the books like Amazon
Running these draws like a marathon
Taking pics with no cameras on
You'll never see me with a bag of dons
Just stack one nigga, no tag-along
More time he ain't even got the banger on
Cause you niggas don't bang, you just bang along

Every time we come through, that's a lot of foreigners
Link with the money makers, got a lot in common
If he ain't talking then he's got it on him
If he ain't talking then he's got it on him
Every time we come through, that's a lot of foreigners
Link with the money makers, got a lot in common
If he ain't talking then he's got it on him
If he ain't talking then he's got it on him
