Trafficking

Blade Brown

I need to see my G up in the trap again
Feds just went and locked him up for trafficking
They said they found his prints all on the packaging
He told me if he beats this case they're going back again
Time to put real music on the map again
Yeah it's time to put some rounds up in the Mac again
Bitch with me looks Jamaican but she's African
She backed it up on me I told her back it up again

I'm tell them R.I.P. B.I.G. screaming "Gimme the loot"
I walked up in the showroom screaming "Give me a coup"
Everbody's lying please just give me the truth
They're rapping 'bout these bricks nah, nah just give me the pr
oof
Got young niggas with machines that I give 'em to shoot
No money motivation so I give 'em the boost
My nigga needs some workers so I give him some recruits
And if them niggas slacking then just give 'em the boot

I need to see my G up in the trap again
Feds just went and locked him up for trafficking
They said they found his prints all on the packaging
He told me if he beats this case they're going back again
Time to put real music on the map again
Yeah it's time to put some rounds up in the Mac again
Bitch with me looks Jamaican but she's African
She backed it up on me I told her back it up again

Calling up the plug I told him "Give me a pack"
He sent me down the product then I gave him the stacks
If it's not the raw shit then I'm giving it back
Everbody's lying please just give me the facts
Undefeated nigga I can give you the stats
And if that boy's a rider ima give him the straps
And if that boy's a grinder ima give him the sack
But if that nigga's slacking then I give him the sack

I need to see my G up in the trap again
Feds just went and locked him up for trafficking
They said they found his prints all on the packaging
He told me if he beats this case they're going back again
Time to put real music on the map again
Yeah it's time to put some rounds up in the Mac again
Bitch with me looks Jamaican but she's African
She backed it up on me I told her back it up again
