

# Wake Up

Blade Brown

I said it's get Get Money Season  
I put a penny on the scale to make sure that its even (Let's work!)  
Stuck up on the roads, I ain't leaving  
Too many mouths needs feeding  
Used to shot light to, Caroline and Steven  
If I get knicked, 'Not Guilty' I'm pleadin'  
Just give them a reason, they come tru on a greeze ting  
Blastin' and squeezing, you're lucky if you're breathing  
The last pack cam short, I tell'em throw in a extra  
This that real flake, you can tell by the texture  
Come around here cuh, they don't respect ya  
Got niggas clappin off from London to Leicester  
And all these little niggas think they're 3hunna  
Couldn't answer and that nigga got like 3 numbers  
187 nigga yeah that's three numbers  
Controlling the block nigga with three youngers

And nah we ain't signed to no major  
{But we still out ere countin' paper}  
And we still out here whippin' flake up (Let's work!)  
{20 missed calls when I wake up}  
Beat a gunshot for a traitor  
{Bullet holes, size of a crater}  
And we still get lots of on the way up  
{Everybody sleepin', better wake up!} (Oi Oi Oi)

Gold sub on my wrist, lemme dive in  
Bags n Boxes in the whip whille ya driving  
Sunshine and Wrey, that's the climate  
Been a spot rusher since academics  
Swag's past wavey, it's paraletic  
Splash so much, I need rehab  
New food, everyday, three cabs  
Strap stay low, call that aneathetic  
Hole in ya head, no paramedic  
She on me, she say my skin's caramelish  
I'm the same nigga with the cameras off  
Man are soft, man are only g's when the cannnon's on  
Don't fuck around with' Lucc, that's the last ball  
I'll shoot a nigga down to the last call  
Niggas think they're hard, cool  
I just copped two properties  
Tell em keep their ass cool

And nah we ain't signed to no major  
{But we still out ere countin' paper}  
And we still out here whippin' flake up (Let's work!)  
{20 missed calls when I wake up}  
Beat a gunshot for a traitor  
{Bullet holes, size of a crater}  
And we still get lots of on the way up  
{Everybody sleepin', better wake up!} (Oi Oi Oi)
