

## Ask Jade

Bladee

(Whatever)  
The beautiful martyr  
Nothing

And yet  
In fear holds thee regrets  
Distress, disgust, unrest  
In testaments of time  
Assassination time  
Disaster reigns this time  
Deciphering these rhymes  
Desaturated lies  
Its affirmation writes  
Exhilarates its voice  
Invigorates its void  
As sculptures, we destroy  
Hack symbols out of stone  
Make monuments that hold  
Excellent things we make  
Excellent will displayed  
Ask gold or go ask jade

Was all of this in vain?  
Who let it get this late?  
How am I supposed to paint?  
Oh  
The feeling that you hate is said to hold a saint  
I promise there's a way (A way)  
It's said to hold some weight  
And yet, let's bet (Bet)  
This time, this lie needs proof  
(The Holy Lord, Saint G-G-George)  
Decide, I need diamonds too  
I'm the, I'm the idol  
Holy, holier than thou  
I'm King Nothing (King Nothing)  
Lonely in the night  
Lonely in the night  
Lonely in the night

The princess' black hair hangs down from the tower of the black castle (Save  
the princess)  
Overlooking the frozen lake in which the three stars reflection will guide h  
er  
And she will be free from this trash island (Alone)  
Miss you  
Shall, shall be free  
Free, free  
Shall be free (Nothing)

And yet  
In fear holds thee regrets  
Distress, disgust, unrest  
In testaments of time (Nothing)  
Assassination time  
Disaster reigns this time  
Deciphering these rhymes

(Saint George the martyr)  
Trying to change my mind 'cause in a way it's not fine  
Sometimes I'm wondering how much I'm-  
Suffering's no surprise  
Color the winter in my mind  
Covering my eyes  
Recovering my high  
You're in a house with no windows  
Yet outside the wind blows  
Outside the life you know  
Beautiful martyr  
Nothing
