

# BLUE CRUSH ANGEL

Bladee

Come out on top again, hope I don't flop again  
Cover my back my friend, hope for an honourable end  
What happens happened just gotta live with that pain  
Do it for glory and fame but really is for the Ain  
Shields go up, I up, silver on silver on stuck  
Drop a lil blood I drop, all in the name of good luck  
Still the same, but I grew up, up from whatever that was  
Still the same me, don't touch, dream in a dream, into dust

Come out on top again, hope I don't flop again  
Cover my back my friend, hope for an honourable end  
What happens happened just gotta live with that pain  
Do it for glory and fame but really is for the Ain  
Shields go up, I up, silver on silver on stuck  
Drop a lil blood I drop, all in the name of good luck  
Still the same, but I grew up, up from whatever that was  
Still the same me, don't touch, dream in a dream, into dust

Felt I almost lost my mind had to take some time, crazy  
DG9 we hold the line and prepare the way, baby  
Flowers wither but don't die, every st- every star align  
Triple three, turns number nine, never fade away  
If you can put pride to the side, destiny decides  
Only one moment in time to change everything  
If you can't say something nice, don't say anything  
To the statue in my mind, stand forever  
(I'm such a fool for you)

I thought I was tough, turns out I was not  
Things we do for love, tell me something  
And even with a lot, it still wasn't enough  
So you showed me that I'm small and I don't mean anything  
Thank you

Two step backwards out when I walk  
Three steps back wishing on a star  
Four step down wishing on a star  
Three stars but six points on the star  
Things that look pretty for a far  
Too good to be without a flaw  
Drew once again the shortest straw  
To be the law you break the law

I saw a rainbow in the dark  
I put a symbol in a song  
I put a window in the wall  
To the statues in my mind, stand forever

You wouldn't believe it when you see it  
Stand so, so serene  
Silver statues in my dream  
I'll live forever so supreme
