

# Butterfly

Bladee

One touch will affect you  
Insect Crew, venom I infect you  
Thaiboy Goon is who I'm next to  
You thought you was with the crew, we finessed you  
I'm in Central, meet me by the rest room  
Hit my plug for the drugs, I hope he comes through  
Ice cream, boy we melt you  
I was in the spider web but I fell through  
Had a dream that I wasn't gonna make it  
Maybe we can forget it when I'm faded  
I'm in the streets, I'm just waiting for a payment  
What you want from me, she want me but I can't save her  
Both pills on me

You don't wanna try me tonight  
I got the knife on me now  
You don't wanna die tonight  
Butterfly's on me tonight  
It makes you fly to the sky  
Do you wanna fly tonight  
You don't wanna try me tonight  
I got the knife on me now  
You don't wanna die tonight  
Butterfly's on me tonight  
It makes you fly to the sky  
Do you wanna fly tonight

I just lost a flame  
I smoke on Darth Vader  
Take you off the radar  
Thaiboy that's my name  
I get my foreign from the bay  
Me and my homies on the way  
We do this everyday  
SG that's my way  
Shout outs to all my mistakes  
Never seen these Apes  
Now I'm feeling well, I'm bout to flex the whole day  
Flex it made it made, flex it made a million  
When I'm running round in tha Stockholm with the drain  
People trying to say  
They don't know what's up, try and take you far away, away  
I could have graduated from Yale  
But young Thaiboy chose the fame, fame  
Ayeeeeeeeeee

You don't wanna try me tonight  
I got the knife on me now  
You don't wanna die tonight  
Butterfly's on me tonight  
It makes you fly to the sky  
Do you wanna fly tonight  
You don't wanna try me tonight  
I got the knife on me now  
You don't wanna die tonight  
Butterfly's on me tonight  
It makes you fly to the sky

Do you wanna fly tonight
