Cherry Bracelets

Bladee

Uh uh uh uh uh
And you know how it go
And you know what it do
Lean

Blow in my nose and I'm riding in a coupe
Got my shawty with me so you know what it do
Cherry coloured bracelets and I'm making money moves
If you fuck with Lean, I punch your face and make it new

Evil pumpkins in my yard, pouring, give me two
Roller blade stacks I got 100's on me, blue
I got molly, I got weed, I got perky's too
Riding in a Maserati hijacking that fool
I'ma hit the mall spend it all, Fendi shoes
Light blue sattelites fresh like I left school
I got everything you need, I got the magic tool
I got everything you need, I got the magic tool

Blow in my nose and I'm riding in a coupe
Got my shawty with me so you know what it do

Think I need a boost, Thaiboy what's the move?
Bladee told me come through, I'm like okay cool
Threw away my old shoes, I need something new
Now they acting cute, I'm not in the mood
Smoking on a gluestick, sticky, taste like fruit
I put on a suit, look like Heidi Klum
Memories turn blue, okay cool
In a Subaru, cut the roof
Doing NO2, yeah darling, I'm so cute
I got bloody jewels, you know what I'll do to you

I'ma stay with her cause she's special
What's on my chain? It's heavy metal
Triple six my wrist like I'm the devil
SBE, DG, stay together
If I want you girl, I want it forever
Get on my level, Margiela leather
Gucci bezels, shining like a treasure
Raw, Smackdown, feeling like a wrestler
Rolls fatter, count it like I'm Dracula
Future blacker, but I climb the ladder
Got the pack and it's busting out the wrapper
I'm on point with it like a dagger

Blow in my nose and I'm riding in a coupe
Got my shawty with me so you know what it do
Cherry coloured bracelets and I'm making money moves
