desiree

Bladee

Whatever
Yeah, try that again

Destiny, look my way
I pray, say my name
I'll be there when you call
There you are
In such a lonely state
Find a way, look away
From hate and what's not pure
Show the source
You change formation (Oh)
To a faithful shape (Shape)
Even as I look away
I feel you spinning there for me
You need concentration
You need love from me
But I give you just something
Then you give everything to me
In the source, sensations
Turn around for me
Show no love falling forever
Falling upwards in a dream
Give the words true meaning
Silvers dance for me
There's no words, this feeling's fading
But the memories are real

Say a wish, you listen (Oh)
Do a spin for me (Spin for me)
You don't have to listen
You just have to believe in the dream

In a dream on forever, stars never die
In your arms, I'm a child, in your arms
Blueberry fields, heavenly
Melodies, instrumentals
The song carries on, carry on
