I think, I can feel you
I think, I can heal you
I think, I can feel you
I think, I can heal you
I think, when you're gone
(I think, I can't feel you)
(I think, I can't heal you)
(I think, I can't feel you)
(I think, I can't heal you)
We're going up and away
(Up and away)
Going up and away
(Going up and away)
I think, I can feel you
I think, I can heal you
I think, I can heal you
I think, I can feel you
When you're gone
