

# Don't Worry

Bladee

Two white doves  
Mix my blood with your blood  
One for one, two for two, let it come  
He's not wrong, it's still cute, it's still fun  
It's enough, is it over or what?  
It goes on, heart and mind, black and white  
Up and down, up and down and around

Please don't worry, please don't worry  
Please don't worry, please don't worry  
Please don't worry, please don't worry  
Please don't worry, please don't worry

It's that way, it's that way when it rain  
Hard to say, quick to see, got no way  
It's on me, situation has changed  
It's my days, please don't hear what I say  
Turn away, turn away, please don't worry  
Take a train, take a flight, take a break  
Please don't worry, I don't wanna harm, I can swear by it  
Say a prayer, Adam and Eve, me I'm Bladee

Please don't worry, please don't worry  
Please don't worry, please don't worry  
Please don't worry, please don't worry  
Please don't worry, please don't worry
