Bladee

It feels like Hellfire, no gloves, pure touch moments  
Soft like last night, last night got colder  
Pure sold her X, so the pink casket open  
Real life breeds new life, new car odor  
Followers, Laptop, Air, weighs nothing  
GTBSG wastes nothing  
Bladee walks in, gets clothes, pays nothing  
Darkness until you see something  
Locked on the safe now, safety  
I know you hate me, I give you no safety  
No more real life, I'm too hasty  
180, life was amazing 'til lately

Thaiboy Goon on 22 rims, Bentley, 2 seater  
Drop top everything, and this world is too real  
They are in it for the kill  
They say they are in it for the kill, GTBSG  
I roll up in the in club with my Shield Gang  
GTBSG, that's my Shield Gang
