Bladée

Whatever

Det är alltid levels, Avicii, lever I fantasivärlden på riktigt
I haven't forgotten how good we are together
You know, and something tells me
Maybe you haven't either
(RipSquad)
Ah-ha-ha

There's levels to everything, Avicii
Album's been out, still streaming
Drugs tryna stop it but can't beat that feeling
Trying to go out, how you feeling?
When you're with us you know it's easy
I know it's hard to even see me
But when you do you get lucky for a year
I tried to tell them about the night, they didn't understand
I tried to show 'em that there's beauty and there's magic in the air
They didn't understand, there's shadow in the light
Open up your mind, there is no day without the night
Bladée, I'm dancing with the stars and I'm pulling joker cards
And I'm going to the sky, I'm going, going, gone
Sacrifice your ego, let go, on my way to the throne, I know
Never be solo, I got my soul, riding around single
Eons at a time take your time, endlessly forever shine
In my heart, in my arms, be forever, baby
Eons at a time never die, never die forever
I'm in your mind if you think about me sometimes baby

Stick together through thick or thin, let the love in
Stick together through thick or thin
The night and day and over and over and over

Ha-ha-ha

It's my world, I can't do no wrong
Make it up as I go along
I won't
(That's your ego, baby)
