

END OF THE ROAD BOYZ

Bladee

Drain Gang sound
Bladee mu-, Bladee music

We're the end of the road boyz you know we make a lot of noise
Mental health awareness, man, I'm anxious and I'm paranoid
You know this shit go round and round and round like a ferris wheel

And you know what goes around comes around like a carousel (It's cold)

When the shield goes up, man, it's never coming down
I don't mind playing the clown, man, they hate when I'm around
It gets ugly, it gets real, I don't mind, I proceed
I describe what I see, I'm a visionary (Truth)
I believe in fate, it's not my fault

Desiree, I walk with destiny

I'm coming down clean, Saint Michael

If I see demons in my life, I kill-kill-kill-kill-kill

Clutching crystals in my hand, got the Bible on my nightstand

I had a dream about a emerald

I woke up, where the ice at?

Man, to get to where we're at, you gotta read between the lines

It gets evil on this road, you gotta keep on being kind

Walk into this life one step at a time

Welcome to this life I die

One thing about Bladee, in faith I'm blind

One thing about love, I'm blind

Reality surf might break my mind, baby, don't waste my time

Take another breath, it's great, I'm fine

GTBSG combined

Say a prayer for the kid, do a spin for the win

Don't look at me for answers, I don't know anything

One time for the money and the glory and the fame

I'ma wash it all away

9 comes and takes everything

Man, I'm forever in a dream world

Mirrors everywhere

I'm forever in a dream world

In it forever, in it forever

End of the road boyz
