

## Every Summer

Bladee

No way, uh-uh  
No way, uh-uh  
No way, uh-uh  
No way, uh-uh

I want a fever dream  
I want a feeling  
I want the summer sea  
I want a feeling

Somewhere, somewhere, someone  
Get in, someone for love  
Somewhere, somewhere, someone  
Alone and alone

Alone, all that's left of you is innocent  
Alone [?]  
Every time, every time  
There's no way this could've happened any other way

You are my only star  
You fall into my arms  
You burn a hole through all  
A lost star fall

This the love that doesn't go away, no way  
This love that doesn't go away, no way  
This the love that doesn't go away, you can try  
Me, go away, no way

(This love that doesn't go away)  
I want a fever dream  
I want a feeling  
You burn a hole through all  
A lost star fall
