

## Evil World

Bladee

Sucker punched by fate  
Drunk love hate  
Sun down, north face  
Come up, sit up

Don't remember, I'll never forget  
Through the dark mirror I'm steppin' obsessed  
I feel nothing but terror in my chest  
The horrors' feverish nightmare caressed  
Heavy steps with a horrible mindset  
It weighs like death on the conscious  
There is no way, only darkness  
There is no soul, just a carcass  
Something screaming from unfathomable depths  
There is no [?]  
There's no escaping from this prison that is flesh  
It's a rebirth, it's punishment, we resurrect

This shit for us, this shit for us  
Daylight fade to black, spirits and lust  
God who I trust  
Pushed it, made that money, built a castle  
On quicksand and betray the fam  
Candy wrappers  
Razor blade, bleed on concrete land  
This shit for us, this shit for us  
Daylight fade to black, spirits and lust  
God who I trust  
Pushed it, made that money  
In the middle of these nowhere roads and there is no rush  
Money, sex, lust  
Blood rush

It's hard to eat, it's hard to sleep  
2000 years of vanity  
Too bad to be  
Too blind to see  
Too mad to grieve  
Too deep to speak  
Too many days of being weak  
Too clean for me  
Filth it shall be

Switching [?] imprediction, I'm so weak  
And I'll taste blood before defeat  
There's blood right on the leaves  
There's so much evil and sensitivity inside of me  
I killed the weakest part of me but being weak is honesty

Crooked cross, this world is fucked  
Finger on the pulse  
Your God is dust, the nine is up  
Drips the darkest blood  
The heart is struck, the star is stuck  
Falling, can't get up  
The world is numb  
The fun is up

Fire interrupts

Su-sucker punched by fate  
Drunk love hate  
Sun down, north face  
Come up, sit up  
Taste the dirt, dark shades  
Black Mercedes  
We still hated  
Hearts ripped up  
Su-sucker punched by fate  
Drunk love hate  
Sun down, north face  
Come up, sit up  
Taste the dirt, dark shades  
Black Mercedes  
We still hated  
Hearts ripped up
