

Cold Visions
Ooh

1500 on a tee, that's the reptilian in me
Think I remember being happy but it's just a memory
Think I depleted all my serotonin, took a lot of E
Thought I had murdered all my darkness but it came right back to me
Maybe it might be, be just what I need
Give me what I deserve 'cause I am the worst
In the club going hard and I'm staring at the wall (Whatever)
In the night and I'm lost following a evil star
It looks good from afar, the brutality of war
Put some salt on my scar
Bring some feathers and some tar
Give your life to the night, to a God that is so false
Give your life to the night, no one notice when you're gone

I believe, I mean I believed
I used to believe when I used to feel
I believe I used to be real
But now I don't, I
But now I don't, I
Don't know
I don't know, I
Don't know
I don't know

In the club going hard and I'm staring at the wall
In the night and I'm lost following an evil star
What's the point of it all?
Question me, don't question God
Going broke at the mall
Going swipe, I swipe my card

I believe, I mean I believed
I used to believe when I used to feel
I believe I used to be real
But now I don't, I
But now I don't, I

SG we sign the seal (Don't know)
Going for the kill, indeed, it's very real (I don't know, I)
We place the Crest upon the hill (Don't know)
Seen the 3 transform to a tree, 3, 3 (I don't know)
Dress so fresh coming down so clean
Designer things all over me
Wipe from your eyes the jealousy
Dress so fresh coming down so clean
Designer things all over me
Wipe from your eyes the jealousy
