

## Feel Like

Bladee

I wanna good time, but you wanna waste time  
Don't wanna FaceTime, I wish you would play nice  
I'm in the late night, [?] (Three Stars), pull up on you, make life

There'll be no next time, it went up and came down  
What goes 'round comes 'round, I wish you would stay down  
What goes 'round comes 'round, I wish you could stay down  
I feel afraid now, I used to be sane now  
Can't even go out, I don't even know why (Drain Gang)  
Baby, just hold tight, even if it's one night

Just make me feel like, feel like it could be right (BladeeCity )

Just make me feel like, feel like it could be right (Three Stars)

Just make me feel like, feel like it could be right  
Make me feel like, feel like it could be right  
Feel like it could be right
